## Tips for Protecting Yourself and Medicare

### **What Does Medicare Cover in Relation to COVID-19?**

- Medicare Part B (Medical Insurance) covers COVID-19 tests when ordered by your doctor or health care provider on or after February 4, 2020.
- Medicare covers all medically necessary hospitalizations, including extra days in the hospital for patients who had to stay longer under COVID-19 quarantine.
- Medicare also recently expanded coverage of telehealth services to enable beneficiaries to access a wider range of services from their providers without having to travel to a facility.
- This includes access to doctors, nurse practitioners, clinical psychologists, and licensed clinical social workers.
- During this emergency, there are also more options for the ways your providers can talk with you under this provision.
